Santa Clara, California 95050

**TECHNICAL COMPLETENESS DETERMINATION FOR THE STANDARDIZED  
HAZARDOUS WASTE FACILITY PERMIT RENEWAL, SERIES A, ECS REFINING,  
705 REED STREET, SANTA CLARA, CALIFORNIA, EPA ID No. CAD 003 963 592**

Dear Mr. Taggart:

The Department of Toxic Substances Control (DTSC) has reviewed the Standardized Permit Renewal Application and Operation Plan, dated April 28, 2008, for the ECS Refining facility located at 705 Reed Street, Santa Clara, California.

In accordance with Chapter 20 of California Code of Regulations, Title 22, Division 4.5, DTSC has determined that the subject application is technically complete. DTSC has prepared a Draft Negative Declaration in compliance with the California Environmental Quality Act and a Draft Standardized Hazardous Waste Facility Permit (Draft Permit).

The Draft Permit and Draft Negative Declaration will soon be made available for public review and comment during a 45-day comment period prior to the issuance of a final permit decision. If DTSC determines that, based on the comments received, additional information is needed to clarify, modify, or supplement previously submitted material; DTSC reserves the right to require this information from ECS Refining.

If you have any questions, please contact me at (510) 540-3779 or [aharmon@dtsc.ca.gov](mailto:aharmon@dtsc.ca.gov).

Sincerely,
